Hope Clinic Internship Application

This internship is a great opportunity for a student who is looking to gain real-world experience for 1-2 days per week. Experience or interest in economics or health-related fields are preferred, but not required. The intern will be responsible for updating chart files and organizing them for follow-up, demographics, activity, etc. In addition to chart files, the intern will do patient data entry into the clinic’s database and some data analysis. It will be a fun learning experience and great for your resume! The work environment is very welcoming at the clinic and there is also an opportunity to aide in research for a study on better patient care standards. Intern must be available either Tuesdays and/or Wednesdays. It is a semester-long internship and the start/end date is flexible with intern’s schedule. To learn more about the clinic, please visit www.utahhopeclinic.org. Please direct questions about the internship to Neela Pack at neelapack@gmail.com or 801-860-3988.

Full Name: ____________________________________________
