Course Description/Objective: This course traces the origins and subsequent evolution of various (often competing) schools of economic thought, their social and philosophical underpinnings and the associated policy outcomes.

On successful completion of this course, students should be able to describe the origins and evolution of various competing economic ideas, juxtapose their major methodological preconceptions and critically analyse the contributions of major economists.

Teaching Method(s): Regular Lectures, Case Studies and Discussions. Students are encouraged to attend classes regularly, take class notes and actively participate in classroom discussions.

Recommended Textbook(s): For this course we will use two textbooks. Older editions are acceptable.

CANVAS: Additional articles, papers, readings and videos will be posted on CANVAS (under the modules tab).

Unannounced Quizzes/Discussion(s): Students will be asked to either engage in a discussion (group) or take a quiz (individual) based on the assigned readings for the week. There will be at least 4 such assignments and I plan to drop the lowest score.

Reaction piece(s)/write-up(s): Students will be asked to critically reflect on an idea or concept discussed in class. The reaction piece(s) will be posted on CANVAS and will be due (online) in 12 days. There will be five reaction pieces and I plan to drop the lowest score.

Exam(s): Both the midterm and the final exam are closed notes and in-class exams. The final exam will be non-cumulative. The exams will include short-answer questions as well a longer essay-type question. I will provide study guides for both the Midterm and Final Exams.

Make Up Policy: There will be no make-up exams except in extreme cases. In such cases, appropriate documentation must be presented and the make-up exam time must be arranged with the instructor. Ideally, students should speak with me in advance to request special consideration of extenuating circumstances that prevent their taking an exam or submitting an assignment at the scheduled time.
