Health Economics 5190/6190-01 Spring 2014
Class time 2:- 3:20 T TH Room MBH 302
Instructor Dr. Anne Yeagle OSH 366
    Phone#s 581-7481 Econ office
Office hours Office Hours: T&TH 10:45-11:45, after our class, and by appointment
Email yeagle@economics.utah.edu

Course Objectives After initial familiarization with basic economic principles and tools we will a look at the U.S. health care system and the problems associated with it. We will then become familiar with the new Health Reform Law. A history of American medicine will be included in this analysis. We will explore the mechanisms of health care delivery, the changing nature of health and medical care, medical technology, and take a look at public policy in regard to medical care delivery. Caring versus curing will be explored. We will also study health care and costs of the elderly, racism, sexism and socioeconomic status in relation to health care, as well as lifestyles choices that affect costs and care. Mental health and obesity will round out our survey of health economics. Students are expected to participate in the course with short individual presentations and a group presentation.

General requirements _Completion of all tests, assignments, presentations, abstract and paper on time and in the manner specified is required. It is also extremely important to keep up on course reading. It is expected that you will come to each class prepared, that is, having read the assigned material. If you are not in class, please refer to the syllabus. If you take responsibility it will affect your class performance positively.

      Regular attendance is also of the utmost importance. The purpose of this requirement is to insure that you get as much as possible from the course. All tests count. If you have reason to believe you will be unable to attend class regularly, I suggest you not take this class.

      Some of the writings, lectures, films, or presentations in this course may include material that conflicts with core beliefs of some students. Please review the syllabus carefully to see if the course is one that you are committed to taking. If you have a concern, please discuss it with me at your earliest convenience.

There are no prerequisites for this class (even though it is upper division). Consequently, we have quite a diverse range of students with different strengths and weaknesses. I would like to emphasize the positive aspect of this diversity, especially in your groups. Help one another with your strengths. Group work can be very rewarding personally and academically. Working with others is also a part of most "real" jobs, so I encourage you to take the time in order to make it a good experience for everyone.

Texts
Required
1. _ST--The Social Transformation of American Medicine_ by Paul Starr (Basic Books)
    ISBN 0465079350 There is one copy at the reserve desk
Notes packet available at the University Book Store
Readings All of the required readings are on e-reserve here at the University Library.

Optional
Grading
1. Test points will vary according to material 10-25 each
3. Group Abstract 3 points possible
4. Paper 10 points possible
5. Presentation 18 points possible
6. Evaluation of you by your group 3 points possible
7. Documentaries 2-5 points each
8. Country Presentations 3 points possible
9. Attendance ¼ point for being on time, ¼ point attendance

1. Tests will vary in the amount of points possible due to different lengths and difficulty. Points will range from 10-25 points per test. There is no final test. We will only use our “final time” if something disrupts the class, such as weather.

2. For the Abstract, paper, presentation please look at those guidelines in packet.

3. "Individual" group evaluation Each student will evaluate the members of their group based on contribution, and responsibility (being on time, doing what you said you would do). Due after your group presentation.

4. If you miss a presentation, you will be docked -10 points. To make up the 10 points you must complete a 3-page, single spaced, report on the topic you missed, using at least three sources, of which 1 must be a journal article. You can makeup only one presentation. The paper is due one week after the missed debate.

5. You will be given credit for documentaries either in assignments or test questions.

6. Country Presentations Each person will “pick” a country to report on. Summarize the info in the worksheet for the class in a 3 minute presentation. Hand in the worksheet in the back of the notespacket when you complete your presentation.

7. Class structure. Tests will be given at the beginning of class. If you come to class late, you will not be given extra time. Presentations will also be start at the beginning of class. Please be prepared.

8. Electronic Devices No electronic devices, such as computers, headphones or cellphones are allowed to be used in the classroom. You will have class notes and computers are very distracting to other students. If you have special needs for taking notes, you will need to speak to me.

9. Absence on test days: One time only! If you know you will be unable to attend a class period on which a test takes place, you will need to submit a written request in advance to me (one time max). If you do not make prior such arrangements, tests taken late will receive 50% of the full grade points (unless absence is verified by doctor or police report). If you do not contact me by the next class, no makeup tests will be given.

10. Extra Credit No extra credit will be granted beyond that offered in class.

Grades There is no curve.
93-100% A 76-73 C
92-90 A- 72-70 C-
89-87 B+ 69-67 D+
86-83 B 66-63 D
82-80 B- 62-60 D-
79-77 C+ 59- F
Health Economics Abstract Guideline

The Abstract of Paper/ Presentation is due at least one week prior to your presentation. I recommend completing it before then in order to get my feedback and to facilitate a timely paper.

One abstract per group.

Abstract should be under 300 words and fit on one page.

Abstract should include:
- Title
- Authors
And most, if not all of the following
- Background/ History
- State the Objective/ The problem
- Conclusion/ Policy Recommendation
- References
- Learning objectives

If I recommend that you need to revise your abstract, points will be given after the revised abstract is complete.

The abstract, revised if necessary, is worth 3 points for each student

American With Disabilities Act Statement The University of Utah seeks to provide equal access to its programs, services and activities for people with disabilities. If you will need accommodations in the class, reasonable prior notice needs to be given to the Center for Disability Services (CDS), 162 Olpin Union Building, 581-5020 (V/TDD). CDS will work with you and the instructor to make arrangements for accommodations. All information in this course can be made available in alternative format with prior notification to the Center for Disability Services.
Health Economics Paper Guidelines

There will be approximately 14 groups with 5-6 people in each group.

Each group of students is required to write a 5 page paper (single spaced, regular margins, 11 or 12 pt font) on the subject your group is presenting to the class. Papers longer than 5 pages will be penalized.

The final paper should use at least 5 different reputable sources to be cited either with footnotes or include a bibliography. These references can include peer reviewed journals, text books, government institutions and non-profit agencies. Be careful on internet cites that may have a strong bias—check original sources used by these sites.

You can use either footnotes or a bibliography for your references.

The paper is worth 15 points for each student.

There will be one paper turned in for each group.

Papers are due the day of your group presentation. Late papers will not be accepted.

Since there are 5-6 people in each group, the group should decide as to how to divide the topic into research/work components. These components should form a coherent whole. This coherent whole should be reflected in your paper as well as your class presentation. Your analysis should be economic in nature. However, some papers may concentrate on "the numbers" more than others.

The following is a list of topics covered. You will be assigned a group and a topic. If your group has additional ideas pertaining to your assigned subject, please bring them forward. My wish is that the topic you are assigned is a topic that interests you, that you would like to learn more about it and share that information with the rest of the class. Also, it will give you the opportunity to meet some new people and experience working in a group—which is like many jobs that you will have in the future.

Medicaid Expansion
AIDS and Sexually Transmitted Diseases in Utah
The Social Costs of Violence
Costs of Air Pollution and Mercury Poisoning in Utah and U.S.
The Relationship between Racism, Classism and Health (Utah and/or U.S and/or World)
Costs of Smoking in Utah and U.S.

The Pharmaceutical Industry
Stem Cell Research
Organ Donation and Transplantation
Affluenza
Depression and Antidepressants in Utah vs. U.S.
Fast Food Proximity and Obesity
Obesity in Utah and U.S.
Health Economics Presentation Guidelines

Each group of students will be assigned (same as paper topic) to construct a presentation that will be given to the class as scheduled on the syllabus.

You are required to prepare a Power Point presentation. (Your presentation will be judged on content, organization, and clarity.)

The total Presentation should be 30-35 minutes. This gives 5 minutes per person to speak and then 5 minutes to conduct your student audience assignment or quiz. You will loose points if you go over your speaking time of 5 minutes per person. Part of the assignment is to stay within your time limit.

You are expected to start on time. Thus, you will necessarily have to make sure your computer works with our particular classroom in advance.

I suggest that you have different sectors including (the appropriateness will vary will the topic)
Background/ History
Objective/ The problem
Data
Conclusion/ Policy Recommendation
References

Grading
During the presentation, I will grade presenters based on the evaluation guidelines listed below and return the evaluation sheet to you the next class period.

The presentation grade is worth 18 points for each individual.

The last slide of your presentation should be a short quiz pertaining to the presentation in order to engage the student audience. It will be worth 2 points. You have a choice. Pick one of the following formats:
1. 4 multiple choice questions
2. 2 short answer questions
3. 1 longer answer question

Evaluation Guideline for Presentations

1. Topic/ Problem stated clearly, engaging your audience 1 2
2. Quality and relevance of information/data 1 2
3. Facts Support Conclusion 1 2
4. Policy or learning objective clearly stated. 1 2
5. Visual presentation of information/ neatness/ effectiveness 1 2
6. Your individual participation/ knowledge of topic 1 2 3 4
7. Keeping within the time limit of 5 minutes 1 2
8. (Preparing/conducting) Student audience assignment/quiz 1 2

Total (18 possible)
Health Economics Syllabus/ Schedule of Events
If time constraints result in a change in the schedule, I will announce the changes in class. Students are responsible to keep updated.

Jan 7 T  The Problem
Go over the syllabus
